Office Action Summary

Art Unit: 3743

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because at least reference characters "10", "14" and "15" has been used to designate at least two different devices. Applicant is requested to correct all drawing errors. Correction is required.

Specification

The specification is objected to as failing to provide clear support for the claim terminology. 37 CFR § 1.75(d)(1) requires that terms and phrases used in the claims find clear support or antecedent basis in the description so that the meaning of the terms in the claims may be ascertainable by reference to the description. Specifically, at least the term "heat dissipating apparatus" does not appear in the specification. Applicant is requested to correct all specification errors.

Claim Rejections - 35 USC § 112

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claim 1, there is an inconsistency within the claim. The preamble indicates subcombination "for use on a spacecraft ..." while the body of the claim there is a positive recital of structure (i.e. spacecraft) indicating combination. The Examiner cannot be sure if applicant's intent is to claim merely the system or the system and in combination with a spacecraft. Also in claim 1, the recitation "from heat dissipating apparatus" is indefinite and it is not known if applicant is claiming a heat dissipating apparatus or not.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. § 102(b) as being anticipated by Esposto.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
